

CLEANROOM & DUST

OUR PURITY LAW DOES NOT APPLY TO YOUR BEER.
BUT IT DOES FOR YOUR COVERALL

Not a grain of dust, not a lint – this is the ideal of a cleanroom. What is not intended in nature is indispensable in paint shops, for example. In the cleanroom, it is the hour of fabrics that secrete as little as possible and also function as filters for particles emitted by the body. A lot of experience and skills are needed to manufacture from these our first-class products.

HABETEX® climatic Pro

This tried and tested cleanroom fabric offers the perfect combination of particularly high wearing comfort, optimised stability and a very low weight. The manufacture of our fabric HABETEX® climatic Pro is specially adapted to suit the specific requirements of cleanrooms.

COAT
